These Rules have been compiled by the Discipline Subcommittee, with amendments by the SSAA National Discipline Chairman's Conference and approved and ratified by the SSAA Inc National Board.

RIFLE METALLIC SILHOUETTE

NATIONAL RULES

REVISED 2019

No. 8

SECTION 1 : AIMS AND OBJECTIVES

- 1.1** To promote all Rifle Silhouette shooting, under prevailing conditions, using rifles capable of the necessary accuracy that can topple the targets.

SECTION 2 : SSAA STANDARD RULES

The SSAA Standard Rules cover common rules, including the protest and appeals process that apply to all disciplines.

The current edition of the Standard Rules is available on the SSAA website at www.ssaa.org.au/standard-rules

These Standard Rules should be used with each discipline's current rule book and they take precedence over any rule that may be in a discipline's rule book.

The Rules covered are shown as heading and subheadings in this Rule Book.

2.1 COMPETITOR'S ELIGIBILITY

2.2 JUNIOR COMPETITORS

2.3 PERSONS WITH DISABILITIES

2.3.1 Authorisation

2.3.2 Substitute position

2.3.3 Awards, trophies, records, etc.

2.3.4 Protests

2.4 COMPETITOR'S RESPONSIBILITY

2.4.1 Competitors and Officials to be familiar with the Rules

2.4.2 Sportsmanship

- 2.4.3 Behavior
- 2.4.4 Range Safety Rules
- 2.4.5 Safety Equipment
- 2.4.6 Clothing
- 2.5 **STUCK LIVE ROUND: MANDATORY RULE**
- 2.6 **RULE INFRINGEMENTS**
- 2.7 **DISCIPLINE CHAIRMAN'S AUTHORITY**
- 2.8 **PROTEST AND APPEALS COMMITTEE**
- 2.9 **SUPPLEMENTARY EVENTS**

SECTION 3 : RIFLE SPECIFICATIONS

Rifles must be weighed and measured before being fired in a match. See Rule 10.14

3.1 GENERAL SPECIFICATIONS FOR RIFLES

- 3.1.1 **Slings:** May be attached to the rifle but may not be used for support of the hand or arm.
- 3.1.2 **Palm rests:** Palm rests are not allowed. A palm rest is any attachment or extension below the forend which aids the normal hand grip and support of the rifle by the forward hand / arm.
- 3.1.3 **Buttplates and Cheekpieces:** A butt or buttplate having a curved rear surface in which the depth of the curve exceeds 25.4 mm (1") when measured from a straight line drawn from the top to the bottom of the buttplate is prohibited. Adjustable buttplates and adjustable cheekpieces must be fixed and sealed in place. See Rule 3.7.4 regarding Black Powder Cartridge Rifle (BPCR).
- 3.1.4 **Release Triggers:** Triggers which function on release are not allowed.
- 3.1.5 **Compensators and Muzzle Brakes:** The use of compensators, muzzle brakes and barrel porting is prohibited, except in Air Rifle Silhouette competition if factory fitted. (The adjustment holes on the Boss-CR are not considered to be compensators, muzzle brakes or barrel porting).

3.2 CENTREFIRE SILHOUETTE RIFLE

A centrefire rifle, 6 mm (.243") or larger calibre, meeting the following specifications:

- 3.2.1 **Maximum weight:** 4.6 kg (10 pounds 2.257 ounces) including sights.
- 3.2.2 **Stock:** The forend (that portion of the stock forward of the trigger guard) shall not exceed 57.15 mm (2 1/4") wide and 57.15 mm (2 1/4") deep measured from the centreline of the bore. The forend shall extend a minimum of 203 mm (8") forward of the forward edge of the receiver ring. The comb shall not extend above the centreline of the bore, but Montecarlo roll may rise 12.7 mm (1/2") on the off side. The toe of the stock including buttplate or recoil pad shall be no more than 177.8 mm (7") below the centreline of the bore. Buttplate or recoil pad may not extend below the lower line of the stock. Attachments, either removable or permanent which do not cause any portion of the rifle to exceed the weight or dimensions as listed herein are permitted. Magazines do not have to conform to stock measurements but those that extend below the stock line may not be used as support as per Rules 3.2.7 and 3.1.2.
- 3.2.3 **Trigger guard:** Must be fitted and may not vary from a conventional configuration for the purpose of providing added thumb or palm support and shall be no deeper than 33.3 mm (1 5/16") below the bottom line of the forend.
Exception: Thompson Centre (TC) & Ruger single shot rifles are exempt, provided the additional depth of the trigger guard is not used as palm or thumb support.
- 3.2.4 **Trigger:** Any functional trigger. See Rule 11.2.
- 3.2.5 **Barrel:** The barrel may be no longer than 762 mm (30") including the sleeve or attachment, as measured from the face of the closed bolt to the end of the barrel including tuner.
- 3.2.6 **Sights:** Any sights may be used, except sighting devices programmed to activate the firing mechanism. Scopes may not be more than 50.8mm (2") above the rifle as measured from the top of the receiver to the underside of the scope tube, nor may the scope be offset from the top centreline of the receiver.
Exception: For rifles that eject the empty cartridge case straight up and that normally use an offset scope, the scope may be offset.
- 3.2.7 **Exceptions:** Australian L1A1 U.S. Rifle calibre 30M1, M14 and derivatives, as allowed by state laws. Only these rifles may exceed the weight limit. The magazine of the M1A, M14, and S.L.R. rifle may not be used as a palm rest.

The Brno or CZ rifle stock configuration in its standard form, is exempt from the drop at toe Rule only.

Any firearm that meets Hunter rifle specifications will also be compliant for use unaltered in Silhouette Rifle Matches.

3.3 CENTREFIRE HUNTING RIFLE

A hunting style rifle of 6 mm (.243") or larger calibre. The intent of this rule is to describe a common hunting rifle built by a major arms manufacturer and that is, or was, readily available to the general public over the counter. It is the competitors responsibility to provide any documentation, which may be required to establish conformance of a rifle to the Rules.

3.3.1 **Maximum weight:** 4.2 kg (9 pounds 4.148 ounces) including sights and if applicable, an empty magazine or clip.

3.3.2 **Stock:** Must conform to factory stock dimensions Thumbhole-type stocks are not permitted. Attachments, either removable or permanent, are not permitted. Swivels and slings are permitted, but slings may not be used for arm support in shooting. Epoxy bedding and the addition of a recoil pad are allowed. Dimensions may not exceed those described in Rule 3.2.4

Exception: If a stock is produced in a handed configuration (i.e. right-handed only) a left-handed competitor may have a left-hand aftermarket stock produced to the same design using the same materials.

3.3.3 **Trigger:** Trigger pull is not to be less than 907 grams (2 pounds). Rifles must be equipped with a functional safety. See Rule 11.2.

All safety features, including any manual safety, must be functional. Testing of the Trigger and Safety will be carried out in accordance with Rule 10.15.

3.3.4 **Barrel:** The maximum barrel length is 660.4 mm (26"), including tuner. A factory tuner that does not act as a muzzle brake or compensator is permitted (See Rule 3.1.5). A rifle may be re-barreled but any replacement barrel shall conform to the dimensions of the factory original but may vary in material provided that the new material does not alter the weight to allow the rifle to fit into a weight class that it would not otherwise fit. Re-crowning of barrels is permitted, as is the removal of a section of barrel to correct damage to the muzzle, provided that the removal of that section of barrel does not alter the weight of the rifle to the extent of allowing it to fit into a weight class that it would not otherwise fit, had the barrel length not been altered.

3.3.5 **Sights:** Any telescopic or metallic sight may be used, however any sighting device programmed to activate the firing mechanism is prohibited. Scopes may not be more than 38 mm (1 ½") above the rifle, as measured from the top of the receiver to the underside of the scope tube, nor may the scope be offset from the centreline of the bore. Where telescopic sights have been fitted, factory metallic sights may be removed from the firearm.

Exception: For rifles that eject the empty cartridge case straight up and that normally use an offset scope, the scope may be offset.

3.3.6 **Magazines:** If using a magazine / clip fed rifle, the magazine / clip must be used and initially loaded to capacity but not be loaded with more than 5 rounds.

Exception: During a Shoot Off, single cartridge loading may be used at direction of the Range Officer.

3.4 RIMFIRE SILHOUETTE RIFLE

Identical to the description of the Centrefire Silhouette Rifle (See Rule 3.2), except that the rifle shall be chambered for only the .22" calibre short, long, or long rifle (LR) cartridge.

3.5 RIMFIRE HUNTING RIFLE

Identical to the description of the Centrefire Hunting Rifle (See Rule 3.3), with the following differences:

- 3.5.1 **Weight:** The weight shall not exceed 3.860 kg (8 pounds 8.142 ounces) including sights.
- 3.5.2 **Calibre:** The rifle shall be chambered for only .22" calibre short, long or long-rifle (LR) cartridges.
- 3.5.3 **Barrel:** Barrel tuners or additional barrel weights are not permitted.

3.6 AIR RIFLE

Any Air Rifle, of any calibre of less than 6.5 mm (.264"), with a maximum weight of 7 kg (15 pounds 6.9 ounces) including sights, that is completely self contained at the time of firing. The rifle must comply with the energy allowances as per the range approval as well as the following rules.

- 3.6.1 **Sights:** Any sights may be used except sighting devices programmed to activate the firing mechanism.
- 3.6.2 **Hooked buttplates:** Are prohibited. (See Rule 3.1.3 for allowable curvature).
- 3.6.3 **Trigger:** Any functional trigger (See Rule 11.2).
- 3.6.4 **Pellets:** All pellets shall be removed from the rifle after the cease fire before leaving the firing line. In the event of an Air Rifle with a fixed magazine being used the rifle magazine must be discharged.
- 3.6.5 **Magazines:** Air Rifle magazines may be loaded to their capacity. Magazines may be left loaded in Air Rifles between the first bank "CEASE FIRE" and the second bank "READY" to avoid indexing issues.

NOTE: If personel are required to go up range for any reason then magazines must be removed from the Air Rifle. In the event of an Air Rifle with a fixed magazine being used the rifle magazine must be discharged.
- 3.6.6 **Reservior tanks:** The storage of reservoir tanks for either compressed air or CO2 are prohibited on the firing line.
- 3.6.7 **Forward hand support:** The forend (that portion of the stock forward of the trigger guard) shall not exceed 155 mm (6.1") deep measured from the centreline of the bore.

3.7 BLACK POWDER CARTRIDGE RIFLE (BPCR)

A hunting or military style rifle, single shot, originally made for black powder cartridges, and manufactured prior to 1896 and being typical of the era. Replicas thereof, are permitted. Hammer must be exposed. If replacement barrels, stocks, or other parts are used, they must be as original. Schuetzen style rifles are not permitted.

Note: Blackpowder must be used in accordance with the "SSAA Guidelines for the use of Blackpowder".

Rifles: The rifles listed in **Appendix A** are permitted. Any rifles of the period not specifically mentioned must be presented with documentary evidence to the Appeals Committee.

- 3.7.1 **Maximum weight:** 5.5kg (12 pounds 2 ounces).
- 3.7.2 **Sights:** Any original manufactured prior to and including 1896 (or reproduction thereof)
- 3.7.3 **Trigger:** In the spirit of the original (See Rule 11.2).
- 3.7.4 **Stock:** Forend must be attached and shall be of traditional design not to exceed 50.8 mm (2") in width, cannot extend more than 9.53 mm (3/8") below the line of the bottom of the receiver, no attachments are allowed on the forend. Measured from the centreline of the bore, the drop at the heel shall not exceed 69.85 mm (2 3/4"). Drop at toe shall not exceed 203.4 mm (8"). The butt shall not be longer than 133.35 mm (5 1/4") top to bottom. Cheekpieces are permitted but not rollover style. Pistol grips are permitted, but no flared or hand contoured styles. Crescent style buttplates are permissible but cannot be over 29.85 mm (1 1/8") deep when measured from a straight line from points of the buttplate. Commercial recoil pads are permissible. Stocks and foreends must be made of natural wood and must be in keeping with designs of the era. (See Rule 4.6).

3.8 SCOPED BLACK POWDER CARTRIDGE RIFLE

Identical to the description of the BPCR (Rule 3.7) with the following exceptions:

- 3.8.1 **Maximum weight:** Including Scope 6.803 kg (15 pounds).
- 3.8.2 **Scope:** No Length or power limitation on the scope. The Scope tube body is to be 19 mm (3/4") or less in diameter and any ocular or objective lenses, adjusting or assembly rings are to be less than 25.4 mm (1") in diameter. No internal scope adjustments for windage or elevation.
- 3.8.3 **Mounts** are to be of a traditional style of the period, and contain the windage and elevation adjustments for the scope in either, or both, the front or rear mounts. No click adjustments in the mount. Either dove tail mounting or scope block mounting is allowed. Original scope mounts of either the Cataract or Malcom styles or variation thereof, or replicas or derivative of either style, are allowed provided the replica or derivative conforms to the criteria mentioned above.
- 3.8.4 **Cheek pieces** may be used and may be of any height.

3.9 SMALLBORE BLACK POWDER CARTRIDGE RIFLE (SBBPCR)

Identical to the description of the BPCR (Rule 3.7) except firing .22LR (cartridge converters, liners and sleeves are permitted).

Exemption: Small frame Martini's up to and including Model 12/15 may be used, including sights originally made for that rifle (if requested by a match official or technical committee the competitor must provide evidence of this). Standard BPCR sights may be used also.

3.10 SMALLBORE SCOPED BLACK POWDER CARTRIDGE RIFLE (Scoped SBBPCR)

Identical to the description of the Scoped BPCR (Rule 3.8) except firing .22LR (cartridge converters, liners and sleeves are permitted).

Exemption: Small frame Martini's up to and including Model 12/15 may be used.

3.11 SERVICE RIFLE

Any Centrefire Service Rifle of greater than 6 mm (.243") may be used if it is "as issued" for general service by the armed forces of any nation. Rules are as for Centrefire R.M.S. (See Rule 3.2) except:

3.11.1 **Weight:** As issued.

3.11.2 **Sights:** Must be of original design. They may vary in dimensions of rear sight aperture / vee and front sight blade.

3.11.3 **Trigger:** Trigger pull is not to be less than 907 grams (2 pounds) and of "as issued" configuration. Testing of the Trigger will be done in accordance with Rule 10.15 Steps 1 and 3 only.

3.11.4 **Stock:** Is to be standard "as issued". Recoil pads or replacement buttplates are allowed.

3.11.5 **Magazines / Loading:** Magazine rifles will have all rounds loaded from the magazine. Stripper clips may be used to load. Only standard "as issued" magazines may be used and may be included in the forehead grasp.

3.11.6 **Barrel:** May be replaced but must conform to the original in terms of dimensions, calibre, chambering and material used in manufacture, e.g. no replacing chrome moly with stainless.

3.11.7 **Modifications:** External modifications (except sights – see Rule 3.11.2) are not permitted. Internal parts of the rifle including the bedding may be specially fitted and includes alterations which will improve the function and accuracy of the firearm, provided that such alterations in no way make the firearm unsafe or interfere with the functions of safety devices as manufactured.

3.11.8 **Specials:** Special models, limited editions, experimental models, specially modified model rifles are not allowed. The intention of the rifle class is to reflect the general issue firearm of a nation's armed forces.

3.12 LEVER ACTION SILHOUETTE RIFLE (LAS)

These Rules apply to all three classes of Lever Action Silhouette rifles. The intent of these Rules is to establish a Match for common hunting carbines and other lever action rifles. The Match is focused toward shooters who enjoy shooting hunting arms and do not want to make the investment required of other specialised types of shooting competitions.

3.12.1 Sights:

(a) Rear sights: These may be open sights, receiver or tang sights mounted as originally intended. No olympic type sights or extended mounts are permitted. No lenses are permitted in rear sights.

(b) Front sights: These must be a post or bead, may be hooded or if interchangeable may use post or bead inserts only. Fibre optic material may be used in or on the post or bead and may not be longer than its support blade and not exceed 32 mm (1 1/8") in length. In an anti-glare tube, the fibre optic material may not be any longer than the tube or extend outside the tube. *The fibre optic sights do not need to be commercially manufactured.* No lenses are permitted in front sights

3.12.2 **Barrels:** Must be factory original to that make of rifle or may be relined. Original barrels rebored to a larger calibre are allowed.

3.12.3 **EXCEPTION:** A competitor may use a rifle fitted with a non factory original barrel for domestic competition only, provided it is in a original factory dimension and chambering (no wildcats). If requested by the Technical Committee, the competitor must provide any reasonable evidence of this. However no rifle fitted with a non factory original barrel (to that make of rifle) may be used by a competitor to obtain a position on an International team.

3.12.4 **Trigger:** Any safe trigger is allowed. (See Rule 11.2)

3.12.5 **Stock:** Must be of an original configuration. Recoil pads or replacement buttplates are allowed.

3.12.6 **Ammunition:** Ammunition must be loaded through the tubular magazine.

3.12.7 Classes of Lever Action Silhouette Rifles

There are three classes of Lever Action Silhouette Rifles.

(a) Lever Action Silhouette Rifle: Any Lever Action Centrefire Rifle 6.35 mm (.25" calibre) or larger with a tubular magazine, be of original manufacture or replica thereof. A rimmed case loaded with a round or flat nosed bullet must be used.

Exception: .30" Remington and .35" Remington are allowed.

(b) Pistol Cartridge Lever Action Silhouette Rifle: Any Lever Action rifle with a tubular magazine firing a rimmed centerfire pistol cartridge of 6.35 mm (25" calibre) or larger with an overall cartridge length no greater than 42 mm (1.65") i.e. 25-20, 32-20, 38's, .357" Magnum, 38-40, 44's, 44-40, .45" Colt, .45" Long Colt.

Lever action rifles with a tubular magazine firing 22 calibre ammunition are also permitted i.e. .22" Magnum and .22" long rifle. Ammunition must be loaded with a round or flat nosed bullet.

(c) Smallbore Lever Action Silhouette Rifle: Any Lever Action rifle with a tubular magazine - the rifle shall be chambered for only the .22" calibre short, long, or long rifle cartridge.

EXCEPTION: Tubular magazine Pump and Semi-auto Rimfire rifles chambered for the .22" calibre short, long, or long rifle, may be used if allowed by legislation.

SECTION 4 : EQUIPMENT AND AMMUNITION

4.1 SPOTTING SCOPES

Are allowed (except for LAS).

Binoculars may be used for spotting in Lever Action Silhouette without using Artificial Support.

4.2 SHOOTING MAT OR GROUND CLOTHS

Are permitted only in Black Powder Cartridge Rifle competition.

4.3 GLOVES

May not be worn except when required for warmth. Conditions permitting the use of gloves will be determined by the Appeals Committee. Shooting gloves may not be worn.

4.4 CLOTHING

Commercial type trap and skeet vests (sleeveless) and shotgun shooting shirts are permitted as well as clothing normally suitable for existing climatic conditions. Shooting coats, unnecessarily heavy clothing, or anything on the person that would provide artificial support, such as clothing having excess padding or stiffening material or which restricts or supports the body in the shooting position, may not be worn. Vests that may be considered to be unnecessarily heavy or to provide artificial support are permitted if they can be closed over a gauge made of 101.6 mm (4") thin wall PVC pipe, not less than 762 mm (30") in length, passed through the entire length of the vest. The vest must also be opened or vented from the bottom edge to a point 50.8 mm (2") above the crest of the hip bone. Any dispute regarding clothing will be submitted to the Appeals Committee for final decision.

4.5 AMMUNITION

Competitors will furnish their own ammunition. Loads that damage targets (except mild steel targets) or those that are deemed unsafe may be disallowed by the Range Officer or Appeals Committee. The use of any other type of ammunition may be prohibited by local range regulations.

4.5.1 Centrefire ammunition: Armour Piercing (AP) or tracer ammunition is not permitted. Any other ammunition prohibited by local regulations or range approval conditions is not permitted.

- 4.5.2 **Rimfire / Smallbore match ammunition:** Hyper velocity rounds with a Muzzle Velocity of greater than 1400FPS (426.7 m/s) are not permitted.
- 4.5.3 **Lever Action Silhouette Ammunition:** May be loaded with smokeless or black powder, using jacketed or cast bullets, with or without gas checks. All bullets must be round or flat nosed suitable for tubular magazine use.

4.5.4 **Black Powder Cartridge Rifle Ammunition**

- (a) **Cartridges:** Will be of the black powder era, any calibre, and loaded with black powder or reproduction thereof. Smokeless powder in any quantity may not be used (including Duplex Loads). Match Officials, at their discretion, may select one or more loaded cartridges at random, pull the bullet, and check contents.
- (b) **Projectiles:** Cast or swaged lead or lead alloy projectiles only. No jacketed or gas checked bullets. Paper patching is permitted. Muzzle loading / breech seating of projectiles is permitted but no additional time will be allowed.

4.6 **EQUIPMENT (GENERAL)**

All devices or equipment which may facilitate shooting and which are not mentioned in these Rules, or which are contrary to the spirit of these Rules are forbidden. The Range Officer and Appeals Committee or Match Director shall have the right to examine a competitor's equipment or apparel. The responsibility shall be upon the Competitor to submit questionable equipment and apparel for official inspection and approval in sufficient time prior to the beginning of a Match so that it will not inconvenience either the Competitor or the Officials.

SECTION 5 : TARGETS

5.1 **Targets:**

For SSAA Registered Silhouette Competition targets shall be of the size and shape established by the scale drawings approved by the SSAA National RMS Subcommittee, or as scaled to alternate distances in accordance with Rule 7.5 and Rule 7.6. Non metric ranges shall have the target size reduced accordingly.

5.2 **Banks**

Targets are to be in banks of five, with all targets in each bank facing the same direction.

5.3 **Colour**

Targets (including sighter targets) may be of any one colour that contrasts with the background so that they can be clearly seen. The colour of sighter targets / swingers will be the same as the match targets.

5.4 **Hard Set**

If targets need to be hard set (fixed) due to adverse weather conditions, all hits shall be scored and targets repainted after each detail has shot. Any Match allowing scoring of hits only will be de-Registered.

5.5 Target Types and Sizes

There are four basic types of silhouettes: Chicken, Pig, Turkey, and Ram.

Scaled drawings of all targets are available from the National Discipline Chairman. (The hole between the horn and the head of the ram shall be optional for all targets except full size).

- 5.5.1 Centrefire Rifle, Centrefire Hunting Rifle, Service Rifle, Black Powder Cartridge Rifle and Lever Action Silhouette Rifle competitions are fired on full size targets. (**Full Size Target**)
- 5.5.2 Pistol Cartridge Lever Action Silhouette Rifle are fired on one-half scale pistol cartridge targets. (**Half Scale Pistol Cartridge Target**).
- 5.5.3 Smallbore Lever Action Silhouette Rifle and Smallbore Black Powder Cartridge Rifle competitions are fired on one-half scale smallbore targets. (**Half Scale Small Bore Target**)
- 5.5.4 Rimfire Silhouette Rifle and Rimfire Hunting Silhouette Rifle competitions are fired on one-fifth scale targets. (**Rimfire Rifle Target**)
- 5.5.5 Air Rifle competitions are fired on one-tenth scale targets. (**Air Rifle Target**)

5.6 Target Material Specifications

The dimensions are shown below for target thickness and for foot and stand sizes. A 10% plus or minus variation is permitted for the feet of the targets. Target steel thickness is a very large factor in the weight of the targets.

- 5.6.1 **Full Size Target:** Targets should be made from Hardened steel with a minimum hardness of 360 BHN (Brinell Hardness Number) and should be 12 mm thick for chickens and pigs and 10 mm thick for turkeys and rams.
- 5.6.2 **Half Scale Pistol Cartridge Target:** Targets should be made from Hardened steel with a minimum hardness of 360 BHN (Brinell Hardness Number) and should be 10 mm thick. Chickens and Pigs may be up to 12 mm thick.
- 5.6.3 **Half Scale Small Bore Target:** Rams should be 5 mm thick, turkeys and pigs should be no less than 6 mm thick and no more than 6.5 mm thick, and chickens should be 10 mm thick or their nearest equivalent.
- 5.6.4 **Rimfire Rifle Target:** Targets should be no less than 6 mm thick and no more than 12 mm thick for the chickens. The pigs, turkeys and rams should be no less than 6 mm thick and no more than 6.5 mm thick.
- 5.6.5 **Air Rifle Target:** Targets can be made from up to 5 mm thick cold rolled steel and welded to bases of the same material.

- 5.7 **Target Feet and Stands Specifications:** The "feet" and the top of the stands must be the same size with a maximum variation of 10%. Feet should be the same material as the target

- 5.7.1 **Centrefire Rifle:** For full size targets, the chicken should stand on a 76 mm x 101 mm (3" x 4") foot, each foot of the pig should be on a 50 mm x 101 mm (2" x 4") foot; the turkey foot should be 76 mm x 200 mm (3" x 8") and the ram feet should be 101 mm x 127 mm (4" x 5") each. The top of the stand may not be less than 152 mm (6") above the ground for Centrefire competition.
- 5.7.2 **Half Scale Pistol Cartridge target:** All feet should be 50 mm x 100 mm long
- 5.7.3 **Half Scale Small Bore target:** All feet should be 50 mm x 100 mm long
- 5.7.4 **Rimfire Rifle:** On the one-fifth scale targets, all feet should be 25 mm x 50 mm (1" x 2") long, except that the pig target may have a single foot welded to both legs, no more than 100 mm (4") long. The top of the stand may not be less than 50 mm (2") above the ground for Rifle Competition.
- 5.7.5 **Air Rifle:** On the one-tenth scale targets, all feet should be 19 mm x 25 mm (3/4" x 1") for chickens, pigs and turkeys and 19 mm x 50 mm (3/4" x 2") for rams. Air Rifle Stands are made by welding a similar sized base to a 30d nail which can either be pushed into the ground or driven into a 50 mm x 100 mm (2" x 4") piece of timber. Targets should be set free standing at least 50 mm (2") off the ground, but may be elevated to a higher position.
- 5.8 **Hinged:** Remotely re-settable targets may be used for Rimfire Rifle and Air Rifle competition.
- 5.9 **Target Setting (Lever Action Silhouette):** To ensure that full-size rams only will be knocked down with reasonable loads, they should be set so that the centre of gravity works through a plane intersecting the stands approximately 30 mm forward of the rear edge. This can be accomplished by experimentally moving the target to the rear until it topples, and then moving it forward of the topple point 25 mm. Stands can be designed to incorporate stops to facilitate setting the targets to the proper topple point. Pistol Cartridge Lever Action targets and Smallbore targets are to be set full-foot and flush with the backs of their stands.
- 5.10 **Target Spacing:** Targets should be placed a minimum of one target width between targets, but not more than 3 ½ target widths between.
- 5.11 **Target Visibility:** As a minimum the targets as described in the Rule Book (figures A, B,C and D) must be visible to all competitors.

SECTION 6 : POSITIONS

6.1 Positions

- 6.1.1 **The Ground:** All references to "The Ground" in the following position rules are to be construed as applying to the surface of the firing point.
- 6.1.2 **Artificial Support:** Any supporting surface except the ground not specifically authorised for use in the Rules for the position prescribed.

- 6.1.3 **Artificial Support for Black Powder Cartridge Rifle Matches:** Artificial support for Black Powder Cartridge Rifle only shall be in the form of approved design crossed sticks constructed of 2 wooden legs, no greater than 25 mm by 50 mm (1" x 2") in thickness and width or 38 mm (1 1/2") in diameter and bolted or tied so that the 2 legs are hinged and capable of pivoting. The end of the legs may be equipped with spikes no more than 75 mm (3") in length and no wider than the edge of the crossed stick. They may be inserted into the ground to aid in retention of an upright position. One layer of protective material may be suspended or inserted in the V of the crossed sticks to protect the rifle. All crossed sticks will be certified.
- 6.1.4 **Firing Position:** Any standing position without artificial support. The rifle will be supported by the hands and one shoulder only. One hand must be forward of the pistol grip.
- 6.2 FIRING POSITION: BLACK POWDER CARTRIDGE RIFLE (BPCR) MATCHES**
- 6.2.1 **Chickens (200m BPCR / 50m SB BPCR):** Any Standing Position without artificial support. The rifle will be supported by the hands and one shoulder. All parts of one hand must be forward of the pistol grip.
- 6.2.2 **All Other Targets (300, 385 and 500 metres BPCR / 100,150 and 200m SB BPCR):** Any position, including crossed sticks but excluding Benchrest.
- 6.2.3 **A crossed stick position:** Is one where the competitor is in a Prone, Sitting, Kneeling or Standing Position with the barrel or forend resting in or above the V of the crossed sticks. See Rule 6.1.3

SECTION 7 : RANGE STANDARDS

7.1 SAFETY

The Range must meet all normal and local range safety requirements.

7.2 FIRING LINE

The firing line is for safety and measurement purposes. No Competitor will place their feet forward of the firing line.

7.3 FIRING POINT

Each firing point shall be numbered to correspond with a Bank of Targets and should ideally have a minimum width of 1.8 metres with a support for the rifle and ammunition.

7.4 SHELTER

The firing points may be protected with a roof but may not be wholly or partly enclosed. Competitors must be exposed to prevailing winds. This does not preclude the construction of Ranges within areas surrounded or partially surrounded by safety walls. Umbrellas or other types of temporary individual shelters are not to be used.

7.5 DISTANCES

All distances are measured from the firing line to the face of the targets when targets are placed in their proper positions on their stands. Matches are commonly fired at the following distances (a +/-1% variation is permissible).

- 7.5.1 Centrefire, Service and Black Powder Cartridge Rifle Silhouette:
Targets: Full Size at distances of 200 – 300 – 385 - 500 metres.
- 7.5.2 Lever Action Silhouette Rifle (LAS)
Targets: Full Size, at distances of 50 – 100 – 150 – 200 metres.
- 7.5.3 Smallbore Black Powder Cartridge Rifle (SB BPCR)
Targets: Half Scale Smallbore at distances of 50 – 100 – 150 – 200 metres.
- 7.5.4 Pistol Cartridge Lever Action Silhouette Rifle (PC LAS)
Targets: Half Scale Pistol Cartridge at distances of 40 – 50 – 75 – 100 metres.
- 7.5.5 Smallbore Lever Action Silhouette Rifle (SB LAS)
Targets: Half Scale Smallbore at distances of 40 – 50 – 75 – 100 metres.
- 7.5.6 Rimfire Rifle Silhouette
Targets: Rimfire Target at distances of 40 – 60 – 77 – 100 metres
- 7.5.7 Air Rifle Silhouette
Targets: Air Rifle Target at distances of 20 – 30 – 36 – 45 yards **or**
18.3 – 27.4 – 32.9 – 41.1 metres.

7.6 ALTERNATE RANGE DISTANCES

Where available range distances do not permit targets to be placed at their maximum specified distances, Match Organisers must use targets scaled proportionally to the shorter distances. In such cases, the actual distances must be stated in the program, but under no circumstances may Centrefire and Black Powder Cartridge Rifle Silhouette be fired at a distance closer than 200 metres, nor may Rimfire Silhouette be fired at a distance closer than 40 metres.

NOTE: Ranges with Turkey rails at 75 metres for Lever Action Silhouette may be used for Rimfire Rifle Silhouette Turkeys without scaling targets.

7.7 ILLUMINATION

Artificial illumination of ranges is allowed.

7.8 TARGET AND FIRING POINT IDENTIFICATIONS

Each bank, consisting of five silhouettes, shall be distinguished from other banks by number boards. These boards are to be legible from the firing line and placed above or below the centre of such bank or by readily distinguished, brightly coloured panels placed between continuous banks. Each firing point shall be marked by numbered small silhouettes or some other device so as to be readily identified as to which firing point is to be used to fire on each bank.

7.9 WIND FLAGS

A wind flag shall be placed at the end or ends of each target line (except in LAS). Any contrasting colour may be used. Wind Flags are not permitted to be used for Lever Action Silhouette matches.

7.10 COMMUNICATION

Communication will be maintained between the target pit and firing line whenever personnel are in the pits.

7.11 CONTRASTING BACKGROUND

It is recommended that dirt berms or other suitable backstops of a contrasting colour to the targets be placed behind the targets to assist with spotting shots.

SECTION 8 : COURSES OF FIRE

8.1 CENTREFIRE, SERVICE RIFLE, AND BLACK POWDER CARTRIDGE RIFLE COMPETITION

A Registered Match consists of 40 rounds fired from the Standing Position at Full Size Targets (See Rule 5.5.1) and appropriate Positions in Black Powder Cartridge Rifle (See Rule 6.2) as follows:

Ten Chicken targets at 200 metres.

Ten Pig targets at 300 metres.

Ten Turkey targets at 385 metres.

Ten Ram targets at 500 metres.

Note: 60 shot Matches are allowed in BPCR but the grading shall record both the first 40 and the average (divide by .6666), but will only count for one grade break.

8.2 SMALLBORE BLACK POWDER CARTRIDGE RIFLE COMPETITION

A Registered Match consists of 40 rounds fired from the Positions described in Black Powder Cartridge Rifle (See Rule 6.2) at Half Scale Smallbore Targets (See Rule 5.5.3) as follows:

Ten Chicken targets at 50 metres.

Ten Pig targets at 100 metres.

Ten Turkey targets at 150 metres.

Ten Ram targets at 200 metres.

Note: 60 shot Matches are allowed in BPCR but the grading shall record both the first 40 and the average (divide by .6666), but will only count for one grade break.

8.3 RIMFIRE RIFLE COMPETITION

A Registered Match consists of 40 rounds fired from the Standing Position at Rimfire Rifle targets (See Rule 5.5.4) as follows:

Ten Chicken targets at 40 metres.

Ten Pig targets at 60 metres.

Ten Turkey targets at 77 metres.

Ten Ram targets at 100 metres.

8.4 AIR RIFLE COMPETITION

A Registered Match consists of 40 rounds fired from the Standing Position at Air Rifle targets (See Rule 5.5.5) as follows:

Ten Chicken targets at 20 yards (18.3 m).

Ten Pig targets at 30 yards (27.4 m).

Ten Turkey targets at 36 yards (32.9 m).

Ten Ram targets at 45 yards (41.1 m).

8.5 LEVER ACTION SILHOUETTE RIFLE:

A Registered Match consists of 40 rounds fired from the Standing Position at Full Size targets (See Rule 5.5.1) as follows:

Ten Chicken targets at 50 metres.

Ten Pig targets at 100 metres.

Ten Turkey targets at 150 metres.

Ten Ram targets at 200 metres.

8.6 PISTOL CARTRIDGE LEVER ACTION SILHOUETTE RIFLE AND SMALLBORE LEVER ACTION SILHOUETTE RIFLE:

A Registered Match consists of 40 rounds fired from the Standing Position at Half Scale Pistol Cartridge Targets (See Rule 5.5.2) for Pistol Cartridge Lever Action Silhouette and at Half Scale Smallbore Targets (See Rule 5.5.3) for Smallbore Lever Action Silhouette Rifle as follows:

Ten Chicken targets at 40 metres.

Ten Pig targets at 50 metres.

Ten Turkey targets at 75 metres.

Ten Ram targets at 100 metres.

Note: See Rule 11.5.2

SECTION 9 : TIME LIMITS

9.1 COMPUTING TIME

Time is not checked on each shot but is computed on the indicated allowance for each five shot string. The Chief Range Officer may terminate any relay before completion of the full time allowance, if all Competitors in that detail have completed firing.

9.2 TIME ALLOWANCES

Centrefire Rifle, Rimfire Rifle, Air Rifle and Service Rifle events.

9.2.1 **Ready Time:** Fifteen (15) seconds will be allowed after the command "READY" before the command "FIRE".

9.2.2 **Firing Time:** Two and one half (2 1/2) minutes will be allowed to fire five (5) shots at each bank of five (5) targets (One Shot per Target) from left to right.

9.2.3 **Alibis:** Thirty (30) seconds will be allowed for each unfired round of the series in which the alibi is allowed.

9.2.4 **Shoot Offs:** Thirty (30) seconds will be allowed for each shot fired in a shoot off for ties.

9.3 TIME ALLOWANCES: BLACK POWDER CARTRIDGE RIFLE EVENTS

9.3.1 **Ready Time:** Thirty (30) seconds will be allowed after the command "READY" and before the command "FIRE".

9.3.2 **Firing Time:** Five (5) minutes will be allowed to fire one (1) shot on each target of a bank of five (5) targets left to right.

Note: For the first bank after a distance change please See rule 10.7.2

9.3.3 **Alibis:** Sixty (60) seconds will be allowed for each unfired round of the series in which the alibi is allowed.

9.3.4 **Shoot-offs:** Sixty (60) seconds will be allowed for each shot fired in a shoot off for ties.

9.4 TIME ALLOWANCES: SMALLBORE BLACK POWDER CARTRIDGE RIFLE EVENTS

9.4.1 **Ready Time:** Thirty (30) seconds will be allowed after the command "READY" and before the command "FIRE".

9.4.2 **Firing Time:** Eight (8) minutes will be allowed to fire unlimited sighters and one (1) shot at each target of a bank of ten (10) targets.

9.4.3 **Alibis:** Sixty (60) seconds will be allowed for each unfired round of the series in which the alibi is allowed.

9.4.4 **Shoot-offs:** Sixty (60) seconds will be allowed for each shot fired in a shoot off for ties.

9.5 TIME ALLOWANCES: ALL LEVER ACTION SILHOUETTE RIFLE CLASSES

9.5.1 **Ready Time:** Thirty (30) seconds will be allowed after the command "READY" is given before the command "FIRE".

9.5.2 **Firing Time:** Two (2) Minutes will be allowed to fire one shot on each target of a bank of five targets left to right.

9.5.3 **Alibis:** Thirty (30) seconds will be allowed for each unfired round of the series in which the alibi is allowed.

9.5.4 **Shoot offs:** Thirty (30) seconds will be allowed for each shot fired in a shoot off for ties.

SECTION 10 : COMPETITION REGULATIONS AND RANGE OPERATION

10.1 ACTIONS OPEN

Unless the firearm is cased, the action must be open except when the competitor is in position at the firing point, and the command "Ready" has been given for the detail.

10.2 FIREARMS UNLOADED

Firearms will not be loaded until the competitor has taken position at the firing point, the firearm pointed toward the targets and the command "Ready" has been given for the detail.

10.3 LOADED FIREARMS

A firearm that has a cartridge in the chamber or in an attached magazine shall be considered loaded. A loaded firearm shall be pointed in the direction of the targets at all times.

10.4 CEASE FIRE

All firearms will be unloaded immediately upon the command "CEASE FIRE". Actions will remain open. See Rule 3.6.5.

10.5 NOT READY

It is the duty of competitors to notify the Range Officer if not ready at the time the command "Ready" is given. Failure of a competitor to notify the Range Officer that they are not ready may result in them forfeiting their right to fire.

10.6 CHANGING RIFLES

Unless it has become disabled and has been so designated by the Range Officer, no competitor will change their rifle during the firing of any Match. Different rifles may be used during a Tournament but in each Championship (which may consist of an aggregate number of 40 shot Matches), the same rifle must be used for all Matches in that Championship. Only one alibi will be allowed in a Match. A claim that a rifle is disabled must be made immediately. All shots fired up to the time that the claim is made will stand as part of the official score. (See Rule 11.5.5)

10.7 SIGHTING SHOTS

10.7.1 Centrefire, Rimfire, Air Rifle and Lever Action Silhouette

Are not allowed as a part of the course of fire. This does not prohibit practice Matches or practice targets provided all competitors have equal opportunity to enter such events or to use such targets. Practice must not be permitted to interfere with the safe, efficient and scheduled operation of the program.

10.7.2 Black Powder Cartridge Rifle and Scoped Black Powder Cartridge Rifle

Sighting shots are allowed in the allocated firing time period. A two (2) minute sighting-in period will be allowed on each change of distance / animal on sighting targets and this two (2) minute period will be added to the time allocated for the first five (5) record shots or prior to a shoot off.

The competitor must nominate to the spotter / scorer when they start to record the five (5) record targets and only five (5) rounds of ammunition is to be available during this allotted time. Once record shots have been nominated no sighting shots

are allowed in the first bank. No sighting shots, warm up shots or fouling shots will be fired in the following bank / banks of five (5) record shots.

10.7.3 **Smallbore Black Powder Cartridge Rifle and Smallbore Scoped Black Powder Cartridge Rifle**

Sighting shots are allowed in the allocated firing time period.

The competitor must nominate to the spotter / scorer when they start to record the ten (10) record targets and only ten (10) rounds of ammunition is to be available during this allotted time. Once record shots have been nominated no sighting shots are allowed.

10.8 **PRACTICE / SIGHTER TARGETS**

Practice / Sighter targets of the same size, colour and shape as the official competition targets will be available to all competitors during the practice or sighting in period at all major events.

10.9 **DEFECTIVE CARTRIDGE**

A defective cartridge is one which:

10.9.1 Has such evident structural defect as to cause a misfire or to cause a firearm to fail to function (does not apply to a cartridge on which the bolt or cylinder of the firearm will not close).

or

10.9.2 Bears an imprint of the firing pin on the primer.

or

10.9.3 From which the bullet has not left the barrel.

10.10 **REFIRE**

A defective cartridge as defined in this Rule allows a refire, but the use of wrong ammunition does not allow a refire. Wrong ammunition is ammunition which cannot be inserted into the chamber of the firearm, upon which the bolt or cylinder cannot be closed, regardless of whether or not the cartridge is the same calibre as the firearm in which it is attempted to be used.

10.11 **DISABLED RIFLE**

A disabled rifle is one which:

10.11.1 Cannot be safely aimed or fired.

or

10.11.2 Has suffered damage so that it cannot be fired or will not function properly and can not be repaired in time to complete the Competition.

or

10.11.3 Has lost the sight or has suffered damage to the sights. Sights improperly adjusted do not constitute a disabled rifle.

10.12 **MALFUNCTION**

Failure of the rifle to function properly due to mechanical defects. Functional failures due to improper manual operation are not to be considered as malfunctions.

10.13 CONTINUE TO FIRE (LONG RUNS)

Competitors who fire a perfect score in an individual stage (hits on all 10 targets at any one range in a 40 shot Match) may be permitted to continue to fire five (5) shot strings until a target is missed (timings as per relevant match see Section 9), as soon as practicable after the completion of competition to provide a means of establishing National records (See Rule 15.4).

10.14 CERTIFICATION OF RIFLES

Rifles must be weighed, measured, and certified for compliance before being fired in a Match. The rifle must be fired in the same configuration as when certified. In case of a rifle malfunction certified by the Range Officer, a replacement rifle may be used but must be certified.

10.15 SAFETY FUNCTION and TRIGGER TESTING

Trigger / safety testing shall be done as follows:

1 Check Safe – clear magazine and chamber. Insert dummy round or fired case for testing if available.

2 Safety Function Test: Close bolt, apply safety catch, squeeze trigger- must not discharge. Disengage safety catch, open bolt - must not discharge.

3 Trigger Weight Test: Close bolt, apply safety catch, squeeze the trigger, disengage safety catch- position rifle vertically, lift trigger weight with roller / hook placed in the centre of trigger curve - must not discharge.

10.16 MATCHES NOT COMPLETE

When a Match or stage is not completed by all Competitors (due to circumstances beyond the control of the Match Organisers) in accordance with the Tournament schedule, the Match or stage may be rescheduled or cancelled. Any Match or stage may be rescheduled or cancelled. Any Match or stage which has been completed by all competitors will not be refired. Only scores of a Match or stage which has been completed will be included in an aggregate event or for National Record purposes and a Match or stage is not completed unless all competitors have fired.

10.17 INTERRUPTED FIRE

If firing is interrupted and a “CEASE FIRE” called before the time limit has expired and before all Competitors have completed firing, when firing is resumed, those Competitors with shots remaining will be given another “Ready” period and shooting time equal to the unexpired time of the interrupted string but not less than thirty (30) seconds.

10.18 PROCEDURE IN CASE OF DEFECTIVE CARTRIDGE, DISABLED RIFLE, OR MALFUNCTION

If a cartridge fails to fire or a rifle fails to function, the competitor will call the Range Officer. The Range Officer, when satisfied that there is a defective cartridge (Rule 10.9), disabled rifle (Rule 10.11), or malfunction (Rule 10.12), will permit the competitor to replace the unfired cartridge, clear the jam, or replace the disabled rifle and continue firing. It is not required that the Range Officer attempt to fire a cartridge before it is declared defective. The competitor will be given thirty (30) seconds for each unfired round of the series. Such completion firing may be done

immediately or on a later detail, at the Range Officer's discretion. Only one such "alibi" will be allowed in a Match. The Competitor may choose instead, to replace the defective cartridge or to clear the malfunction and continue to fire. If they choose to do this, they have forfeited their opportunity to claim an alibi and will not be given additional time.

10.19 INTERFERENCE

Only Competitors, Coaches / Scorers / Spotters and Range Personnel to be on the Firing Line.

10.20 REFIRING

No competitor will fire more than one score for the same award except as provided in the program or in accordance with Rule 10.16.

10.21 CROSSFIRE EXCESSIVE SHOTS

No competitor will deliberately fire on the wrong target nor fire more than the required number of shots, including hits and misses on some other Competitor's targets.

SECTION 11 : RANGE CONTROL

11.1 SAFETY

All actions must be open and rifles kept unloaded on a rack, or other safe place except when on the Firing Line and the command "**READY**" is given. Rifles must remain on the stand or bench where provided and may not be handled between series. The host Branch / Club or Appeals Committee shall have the right to bar or disqualify any rifle, load, or Competitor, at any time for reasons of safety. A Competitor firing a shot from the firing line before the command "**READY**" is given, will be disqualified from that day's scheduled events.

11.2 ACCIDENTAL DISCHARGE

In the event of accidental discharge, the Range Officer shall require repair / adjustment or replacement of the rifle.

11.3 DELAYING A MATCH

No competitor may delay the start of a Match through tardiness in reporting or undue delay in preparing to fire.

11.4 PREPARATION PERIOD

The competitor will be allowed fifteen (15) seconds after the command "**READY**" and before the command "**FIRE**" during which they may load, set sights, and make any other preparations. This preparation period will be thirty (30) seconds in Black Powder Cartridge Rifle and Lever Action Silhouette.

11.5 FIRING LINE COMMANDS AND PROCEDURES

Each competitor has a bank of five (5) Silhouettes at which to fire, one shot at each, left to right, in order in the appropriate time. If the competitor has shots unfired and no targets remain standing on their or another bank, the bank will be reset and they will be allowed a "**READY**" period and thirty (30) seconds for each remaining shot (sixty (60) seconds for Black Powder Cartridge Rifle).

11.5.1 **Commands:** Upon being called to the firing line, Competitors shall place their rifles and ammunition on the shooting stands, where provided, until the command “For your first / second bank of targets-**READY**” is given. Competitors may at that time handle their rifles, dry-fire as desired, set their sights and load. The ready time allowance for the match being shot will be allowed before the command “**FIRE**” is given.

After the expiry of the time allowed for the fire period in the match being shot the Range Officer will command “**CEASE FIRE**”, with the “**CEASE**” being one (1) second before the expiration of time with the word “**FIRE**” following one (1) second later and being the cessation of the firing period. It is recommended that the Range Officer explain the Range Commands before starting the Match.

The specific timings for matches can be found in:

- Rule 9.2 CENTREFIRE RIFLE, RIMFIRE RIFLE, AIR RIFLE AND SERVICE RIFLE
- Rule 9.3 BLACK POWDER CARTRIDGE RIFLE
- Rule 9.4 SMALLBORE BLACK POWDER CARTRIDGE RIFLE
- Rule 9.5 LEVER ACTION SILHOUETTE RIFLE CLASSES

11.5.2 **Procedure:** Each competitor has a bank of five (5) silhouettes at which to fire, one shot at each, left to right, in order, in the appropriate time. Hits out of sequence are scored as misses, e.g. the second shot hitting the third silhouette is a miss. When a silhouette is down before a shot, the competitor will fire on the remaining ones in order, then return to the left most target remaining in the bank and fire their unfired rounds at the remaining silhouette or silhouettes as required. If the competitor has shots unfired and no targets remain standing on their or another bank, the bank will be reset and they will be allowed a “**READY**” period and thirty (30) seconds for each remaining shot. (sixty (60) seconds for Black Powder Cartridge Rifle).

11.5.3 **Hits:** Only hits and misses are recorded and a silhouette must be knocked over or from its stand in order to score a hit. “Turning” a silhouette on its stand does not count as a hit. There are no refires or alibis except for rifle malfunction or non firing cartridge (exception see Rule 11.5.4).

11.5.4 **Malfunctions:** If a malfunction occurs, the Competitor will be allowed to use another rifle and / or cartridge and will be given thirty (30) seconds for each unfired round of the series. Such completion firing may be done immediately, or on a later detail, at the Range Officer’s discretion, based on the length of the delay involved, such as rifle repair, substitution, or other pertinent factors.

11.5.5 **Different rifles:** May be used during a tournament, but in each individual Match, the same rifle must be used for all stages in that Match, except when rifle failure occurs and is certified as such by the Range Officer (see Rule 10.6).

11.5.6 **Coach / Spotter:** Each competitor may have one Coach with them on the firing line who may have scope or binoculars and advise the competitor where shots are going, keep time, or otherwise advise.

SECTION 12 : CHAMPIONSHIP (TOURNAMENT) OFFICIALS

12.1 MATCH DIRECTOR

The Match Director is directly responsible for the efficient conduct of the entire Tournament. They may change the Match and firing conditions as shown by the program provided a bulletin is posted for the information of all competitors, and that such changes are not contrary to current SSAA Rules. The Match Director is directly responsible for the efficient operation of the Range and for the safety and proper discipline of all tournament operating Personnel, Competitors and Spectators. Instructions from the Match Director for the operation of the tournament will be complied with by all persons on the Range. The Match Director will use their best judgement at all times and their behaviour and decisions must be characterised by absolute impartiality, firmness and courtesy. In the application of these Rules, the Match Director will confer with the Appeals Committee on any doubtful point and will be guided by the Appeals Committee's decision.

12.2 RANGE OFFICER

Is to conduct the tournament in a safe and proper manner and carry out the procedures as outlined in these Rules. The Range Officer will also check to ensure that competitors on the firing line conform to the Rules as outlined in this Rule Book.

12.3 DUTY TO COMPETITORS

It is the duty of all Officials to be fair and impartial when carrying out their various duties. Should a Competitor's equipment or demeanour warrant disqualification for an individual Match or Tournament, it should be done in such a manner as will cause the least inconvenience to all concerned.

SECTION 13 : SCORING

13.1 HOW TO SCORE

All shots are scored by marking either a "0" for a miss, or an "X" for a hit in the correct spaces on the scorecard. The scorecard is marked in the same order as the targets are fired, beginning in the first space on the left and progressing to the right until the stage is complete. Hits out of sequence are scored as misses. For example, the second shot hitting the third silhouette is a miss.

When a silhouette is down before a shot, the competitor will fire on the remaining ones in order, then return to the left most target remaining in the bank and fire their unfired rounds at the remaining silhouette or silhouettes as required. All spaces on the scorecard must be filled with an "0" or an "X" as appropriate. Each competitor is responsible for checking with their scorekeeper immediately after firing their five rounds to be sure that they have been credited with the correct number of hits. There will be no appeal if the silhouettes have been returned to the stands.

13.2 MISSES

Any shot which does not knock the proper silhouette over or from its stand will be scored a miss. "Turning" a silhouette on its stand will be counted as a miss. If the competitor fires less than the prescribed number of shots through their own fault, or fires on the wrong target, they are scored a miss for each unfired shot or each shot fired on a wrong target.

13.3 EARLY OR LATE SHOTS

A competitor firing a shot from the line before the command “**READY**” is given will be disqualified from that day’s scheduled Match. A shot fired between the **READY**” and “**FIRE**” commands will be scored as a miss. Shots fired upon closing of the bolt or action when on the firing line will be scored as record shots. Any shot fired after the “**CEASE FIRE**” command will be scored as a miss.

13.4 ALL SHOTS COUNT

All shots fired by a Competitor after they have taken their position at the firing line will be counted in their score even if the rifle may be accidentally discharged.

13.5 HITS ON WRONG TARGETS

Hits on the wrong target are scored as misses.

13.6 RICOCHETS

Ricochet hits fired in sequence at properly designated targets count as hits.

13.7 INSUFFICIENT SHOTS

If a Competitor fires less than the required number of shots through their own fault, they shall be scored a miss for each unfired shot.

13.8 SCORER / SPOTTER’S DUTIES

The Scorer / Spotter will position themselves behind the competitor where they can observe both the competitor and their bank of targets. They will record the value of each shot before the next shot is fired. It is the Scorer / Spotter’s responsibility to ensure that the competitor observes the Rules and time limits, fires no more than five rounds per series, and when strong wind is a factor, to watch silhouettes closely so that they can tell when a silhouette is blown over and not knocked down by a bullet.

13.9 SCORE CARDS

Score cards will be prepared by the host Branch / Club and made available to the Competitors.

13.10 ERASURE ON SCORE CARDS

A scorer is not permitted to make any erasures, corrections, or changes on the score card. If correction is necessary, it must be made and initialled by an Official. To make corrections, an Official draws a line or lines through the incorrect score, and places the correct score above, adding their initials opposite the correct score.

SECTION 14 : DECISIONS OF TIES

14.1 TIES (ALL MATCHES EXCEPT BLACK POWDER CARTRIDGE RIFLE / SMALLBORE BLACK POWDER CARTRIDGE RIFLE)

14.1.1 In all matches except Black Powder Cartridge Rifle matches, ties will be broken by one of the two following methods of shoot offs.

14.1.2 “Master and AAA grade” Competitors will shoot one shot at a designated Turkey as above, but if ties remain, will proceed to fire additional shots at Turkeys until all

ties are resolved. "AA grade" Competitors will shoot off only on Rams, "A grade" Competitors on chickens, and "B grade" Competitors on Pigs.

In either above method of tie-breaking, the Competitor will be given a fifteen (15) second "**READY**" period and thirty (30) seconds firing time for each shot.

14.1.3 Competitors will fire five shots at a designated bank of (see Rule 14.1.4) targets and if a tie remains, Competitors will fire further five (5) shot strings until the tie is broken. (Time limits is as per Rule 9).

14.1.4 "Master" and "AAA grade" Competitors will shoot at Turkeys.
"AA grade" Competitors will shoot at Rams.
"A grade" Competitors will shoot at Chickens
"B grade" Competitors will shoot at Pigs.

14.2 TIES (BLACK POWDER CARTRIDGE RIFLE / SMALLBORE BLACK POWDER CARTRIDGE RIFLE)

14.2.1 In all Black Powder Cartridge Rifle matches ties will be broken by one of the two following methods of shoot offs.

14.2.2 "Master and AAA grade" Competitors will shoot one (1) shot at a designated Chicken as above, but if ties remain, will proceed to fire additional shots at Chickens until all ties are resolved. "AA grade" Competitors will shoot off only on Turkeys, "A grade" Competitors on Rams, and "B grade" Competitors on Pigs.

In either above method of tie-breaking, the Competitor will be given a thirty (30) seconds "**READY**" period and sixty (60) seconds firing time for each shot.

14.2.3 Competitors will fire five (5) shots at a designated bank of (see Rule 14.2.4) targets and if a tie remains, Competitors will fire further five (5) shot strings until the tie is broken. (Time limits is as per Rule 9).

14.2.4 "Master" and "AAA grade" Competitors will shoot at Chickens.
"AA grade" Competitors will shoot at Turkeys.
"A grade" Competitors will shoot at Rams
"B grade" Competitors will shoot at Pigs.

14.3 CATEGORY POSITIONS

Shoot offs for category positions, when involving Competitors from different grades, will take place on the animal relevant to the score which has been tied (e.g. Juniors with a score of 20 would shoot on Chickens).

SECTION 15 : NATIONAL AND AUSTRALIAN RECORDS

15.1 ESTABLISHMENT OF NATIONAL RECORDS

Scores to be recognised as National records must be fired at Matches which are designated as National Championships. National Records must be approved by the Match Director at the particular Match involved, and by the next National Subcommittee meeting before being declared official.

15.2 AUSTRALIAN RECORDS

Australian Record Scores may be fired at any Match and must be approved by the Range Officer and by the next National Subcommittee meeting before being declared official.

15.3 SCORES TO BE USED

Scores must be complete scores for the Match (Match being defined as 40 shots). Championships shall be an aggregate of any number of 40 shot Matches.

15.4 LONG RUN RECORDS

Australian records for long runs (consecutive hits on one type of animal) may be set at any Competition, notwithstanding Rule 15.1. A long run must commence with 10 out of 10 in a 40 shot Match. (See Rule 10.13).

SECTION 16 : COMPETITOR DUTIES AND RESPONSIBILITIES

16.1 HANDLOADING

As Metallic Silhouette shooting facilitates the hand loading of ammunition, it is the responsibility of the Competitor to ensure that all safe practices and codes outlined for such procedures are diligently observed.

16.2 CLEANING RANGE

It is the duty of competitors, after the completion of each stage, to see that the firing points are kept clean.

16.3 COMPETITORS WILL SCORE

Competitors will act as Scorers when requested to do so by the Match Director or Range Officer, except that no competitor will score their own targets.

16.4 GRADING

It is the competitor's duty to have their current grading card in their possession when competing in competition using a grading system. Ungraded competitors must obtain their grading card from the Tournament Officials.

16.5 SCORE CARD

It is the competitor's duty to secure their scorecard for each Match in ample time to permit reporting at the proper time and place to fire each Match. It is not the duty of Officials to page competitors in order to get them on the firing line. Competitors, upon receipt of score cards, should either fill them in completely or if already filled in they should inspect them for correctness and errors should be reported immediately. It is the duty of the Competitor to check and sign their card on completion of each stage.

16.6 LOADING

No Competitor will load a firearm except at the firing point and after the command "READY" has been given by the Range Officer.

16.7 CEASE FIRING

All firearms will be unloaded immediately upon the command "CEASE FIRE". Actions will remain open. See Rule 3.6.5

16.8 SCORING / TARGET SETTING

Any Competitor who fails to perform their assigned tasks for scoring and/or setting targets may be disqualified from the entire Tournament.

SECTION 17 : GRADING

17.1 GRADED COMPETITORS

Competitors who are officially graded in Rifle Silhouette Competition.

17.2 ESTABLISHING GRADES

A Competitor will receive their first grading on the basis of the first 40 shot Match fired, or for a Championship they will be graded on the highest 40 shot Match score fired in the Championship. The grades are to be based on those shown in the Grade Key Table at the end of this section.

17.3 SCORES USED FOR GRADING

Scores used for Rifle Metallic Silhouette gradings are those scores fired in SSAA Rifle Metallic Silhouette Matches or matches shot overseas as determined by the RMS Subcommittee.

17.4 RIFLE METALLIC SILHOUETTE GRADING CARDS

Rifle Metallic Silhouette Grading cards are available from SSAA National free to SSAA Branches / Clubs. Scores fired in Registered Matches are to be recorded on each Competitor's card at the conclusion of all Matches by an Official. Any required grading change will also be noted at the time on the Grading Card. The following data must be entered in the indicated blanks on the Grading Card upon receipt:

17.4.1 Competitor Name and Branch / Club.

17.4.2 Current grading.

17.4.3 Two highest 40-shot scores fired.

17.4.4 Type of grading (i.e. Rimfire, Centrefire, Air Rifle, Lever Action Silhouette, Black Powder Cartridge Rifle).

17.4.5 Scores for Rifle Silhouette and Hunting Rifle should be on the same card.

17.5 LACK OF GRADING EVIDENCE

It is the Competitor's responsibility to have their SSAA Official Rifle Metallic Silhouette Grading Card and to present it when required. Any Competitor who cannot present such evidence will shoot ungraded. Grades may be established by independent records of Matches shot, which shall be accepted as evidence. A Competitor's grading will not change during a Championship. A Competitor will enter a Championship under their correct grading and fire the entire Championship in that grade. Should it be discovered during a Championship that a Competitor has entered in a grade lower than their correct grade, the Championship records will be corrected to show the correct grade for the entire Championship.

17.6 **COMPETING IN A HIGHER GRADE**

Any individual or team may elect, before firing, to compete in a higher grade than the one in which graded, provided there are at least three Competitors of that higher grade already nominated. Such individual or team must fire in such higher grade throughout the Championship and not revert to earned grading for any event in that Championship.

17.7 **TEAM CLASSIFICATION**

17.7.1 An official State Team will consist of three (3) competitors from the same state who have been confirmed by a selection process at state level and then nominate as a team before the commencement of the match.

17.7.2 Any other teams will consist of any three (3) competitors who nominate as a team before the commencement of the match.

17.8 **REGRADING**

A Competitor will be upgraded from B grade to A grade when they fire two scores of a higher grade. All other grade breaks require the competitor to fire three scores of a higher grade. If the two or three higher scores are in different grades, regrading shall be to the lower of the two, the higher scores will also be used toward any subsequent regrading.

17.9 **DOWN GRADING**

Regrading to a lower grading will occur only on request to the National Awards Secretary and presentation of proof through six consecutive scores recorded on the Competitor's grading card in a lower grade. Such downward grading may take place as many times as the Competitor may require, provided that at least six consecutive scores in a lower grade are fired between gradings downward, and that at least six months have expired since the last downward regrading. No Competitor may be regraded downward more than one grade at a time.

17.10 **CHAMPIONSHIPS**

No Competitor will be changed in grading during the course of a Championship. The Competitor's grading in a Regional, State, or National Championship will be the highest they have held in the six months prior to the first day of the Championship.

Grade Key Table Individual

Centrefire Rifles

Grade	
Master	32-40
AAA	23-31
AA	17-22
A	11-16
B	0-10

- 20.1.4 Claim Forms and Score sheets should be sent to the Awards Secretary.
- 20.1.5 No Awards, Medals or Prizes may be claimed by Non Members.
- 20.1.6 Only Juniors are eligible for Junior Awards.

20.2 PROFICIENCY AWARDS AVAILABLE

- 20.2.1 **Junior Air Rifle Award:** May be won with a score of 10 or above.
- 20.2.2 **Bronze Air Rifle Award:** May be won with a score of 15 or above.
- 20.2.3 **Silver Air Rifle Award:** May be won with a score of 22 or above.
- 20.2.4 **Gold Air Rifle Award:** May be won with a score of 28 or above.
- 20.2.5 **Masters Air Rifle Award:** May be won with a score of 34 or above.
- 20.2.6 **Junior Rimfire Award:** May be won with a score of 10 or above.
- 20.2.7 **Bronze Rimfire Award:** May be won with a score of 15 or above.
- 20.2.8 **Silver Rimfire Award:** May be won with a score of 22 or above.
- 20.2.9 **Gold Rimfire Award:** May be won with a score of 28 or above.
- 20.2.10 **Masters Rimfire Award:** May be won with a score of 34 or above.
- 20.2.11 **Junior Rimfire Hunting Rifle Award:** May be won with a score of 10 or above.
- 20.2.12 **Bronze Rimfire Hunting Rifle Award:** May be won with a score of 15 or above.
- 20.2.13 **Silver Rimfire Hunting Rifle Award:** May be won with a score of 22 or above.
- 20.2.14 **Gold Rimfire Hunting Rifle Award:** May be won with a score of 28 or above.
- 20.2.15 **Master Rimfire Hunting Rifle Award:** May be won with a score of 34 or above.

- 20.2.16 **Junior Centrefire Award:** May be won with a score of 7 or above.
- 20.2.17 **Bronze Centrefire Award:** May be won with a score of 11 or above.
- 20.2.18 **Silver Centrefire Award:** May be won with a score of 17 or above.
- 20.2.19 **Gold Centrefire Award:** May be won with a score of 23 or above.
- 20.2.20 **Masters Centrefire Award:** May be won with a score of 32 or above.
- 20.2.21 **Junior Centrefire Hunting Rifle Award :** May be won with a score of 7 or above.
- 20.2.22 **Bronze Centrefire Hunting Rifle Award:** May be won with a score of 11 or above.
- 20.2.23 **Silver Centrefire Hunting Rifle Award:** May be won with a score of 17 or above.
- 20.2.24 **Gold Centrefire Hunting Rifle Award:** May be won with a score of 23 or above.
- 20.2.25 **Master Centrefire Hunting Rifle Award:** May be won with a score of 32 or above.
- 20.2.26 **Junior Lever Action Rifle Award:** May be won with a score of 10 or above.
- 20.2.27 **Bronze Lever Action Rifle Award:** May be won with a score of 15 or above.
- 20.2.28 **Silver Lever Action Rifle Award:** May be won with a score of 22 or above.
- 20.2.29 **Gold Lever Action Rifle Award:** May be won with a score of 29 or above.
- 20.2.30 **Masters Lever Action Rifle Award:** May be won with a score of 35 or above.
- 20.2.31 **Junior Lever Action Pistol Cartridge Rifle Award:** May be won with a score of 10 or above.
- 20.2.32 **Bronze Lever Action Pistol Cartridge Rifle Award:** May be won with a score of 15 or above.
- 20.2.33 **Silver Lever Action Pistol Cartridge Rifle Award:** May be won with a score of 22 or above.
- 20.2.34 **Gold Lever Action Pistol Cartridge Rifle Award:** May be won with a score of 29 or above.
- 20.2.35 **Masters Lever Action Pistol Cartridge Rifle Award:** May be won with a score of 35 or above.
- 20.2.36 **Junior Smallbore Rifle Award:** May be won with a score of 10 or above.

- 20.2.37 **Bronze Smallbore Rifle Award:** May be won with a score of 15 or above.
- 20.2.38 **Silver Smallbore Rifle Award:** May be won with a score of 22 or above.
- 20.2.39 **Gold Smallbore Rifle Award:** May be won with a score of 29 or above.
- 20.2.40 **Masters Smallbore Rifle Award:** May be won with a score of 35 or above.

SECTION 21 : TARGET TEMPLATES

- 21.1 Target template drawings both on paper and electronically are available from the National Discipline Chairman.
- 21.2 Full Size Targets are made by enlarging the grids in figures A to D to 25.4 mm (1") squares
- 21.3 Half Scale Pistol Cartridge and Half Scale Smallbore Targets are one-half the size of Full Size Targets
- 21.4 Rimfire Rifle Targets are one-fifth full size targets.
- 21.5 Air Rifle Targets are one-tenth full size targets.

**FIGURE A

SECTION 22 : DEFINITION OF TERMS

TERM	DEFINITION
Bank	5 targets of one animal type
Match	40 shots, as defined in Section 8 of this Rule Book
Championship	Multiple 40 shot Matches
Tournament	Multiple Championships
RMS	Rifle Metallic Silhouette
LAS	Lever Action Silhouette
Domestic Competition	Competitions up to and including National Championship held in Australia.

APPENDIX A :

Appendix A: Buck, Cole, Farrow, Maynard, Redfield, Remington Hepburn, Remington Rolling Block, Sharps, Springfield Trapdoor, Stevens Tip-up, Stevens 44, Wesson Falling Block, Wesson Hinged Barrel, Whitney Phoenix, Whitney Rolling Block, Winchester 1885, Browning 1879, Snider, Alexander Henry, Martini, Martini-Henry, Farquharson, 1871 and 1876, Deeley and Edge 1873, 1876, 1878 and 1881, Field McNaughton 1889, Fraser 1880, Rigby-Banks 1882, Holland & Holland-Woodward 1894, Comblain, Heeren, Jeffery 1895 and Guedes 1885, Browning 1878, Browning 1885, C. Sharps 75, Falling Block Works, Stevens 44 ½ and Wickliffe 76. Or scaled reproductions of the above.

Any other action designs not mentioned or shooting equipment not described with Rule 3.7 must be presented with evidence to the Appeals Committee.

SUPPLEMENTARY EVENT :

Supplementary Match 1:

Clubs may run a supplementary match / matches on LAS ranges using non lever action rifles, e.g. falling block or break barrel rifles.

Matches may be run in conjunction with, or separate to, the regular LAS matches.

All other rules are the same as for each of the three LAS classes of rifle, (See Rule 3.12) e.g. Sights, timing, targets, etc.

Ammunition, rimmed cartridge no larger or more powerful than would be in a lever action rifle in that class.

NOTE: These Supplementary matches are not to be used for grading and scores shot are not eligible for placing or awards.
